Subject: CREG Consultation 2108 - Transit shipping arrangements between different central counter parties and shipping agents for the exchange resulting from the single intraday coupling

Febeliec thanks the CREG for this consultation.

Febeliec has no specific comments on this issue, and understands that, in the given circumstances, the best option is to continue to apply the interim solution as long as a final solution is not available.

Febeliec urges, however, all concerned actors to work out an enduring solution in compliance with the CACM Code as soon as possible.
