

SYNERGRID CONSULTATION ON THE COOPERATION AGREEMENT ELIA-DGO (distribution grid operators)

Febeliec at this point only has one comment on the consultation.

It is impossible to provide any input or comments on section 5.2 (treatment of damage claims of third parties), as it is made confidential, although it is of high relevance for grid users to know how their damage claims will be dealt with by grid operators.

Febeliec therefore invites Synergrid to share the content of this section with grid users.
